

15 March 2012

Dear Michelle Mclean and trust team,

We want to give you our most sincere gratitude for your generosity and support and we would like to share with you some of our progression.

With your financial support Nicole was able to join the therapeutic riding team. She is a professional horse rider and has won numerous competitions in show jumping and other events. She is currently giving riding lessons to some of the children in the program, bringing in a different aspect we can offer our riders. She is also receiving training in working with people with disabilities while we are working with the children with various disabilities and age groups.

Two weeks ago I went down to Johannesburg where I bought saddles, halters, bridles and a lot of other equipment for our riders, thanks to your generous financial contribution.

Parents that have children with disabilities are faced with a lot of financial challenges as these children have various needs and the therapies that they need are very costly. Thanks to you we are proud to be able to offer and give lessons to some of our riders at a discounted price and even for free as the need arises.

I am constantly reminded that we are blessed to bless. It is an honor to be able to do what we love to do and know that we are making a difference. Thank you for supporting us in our mission.

Kind Regards

Vesta Burmeister and the Therapeutic Riding Team
